 **DEVELOPED  
IN GERMANY**

## ABOUT US

be quiet! is a German premium brand of power supplies, PC cases, water and air cooling and fans for desktop PCs. The products of be quiet! offer legendary quiet operation and first-class performance thanks to our passion for quality and precision. A special focus is on product quality and details.

Since its foundation in 2001, our experts lead product conception, design and quality control from our headquarters in Germany.

This successful concept is not only regularly confirmed by awards from the European Hardware Association as well as renowned trade magazines and online portals, but also by the growing community and customers all over the world.

**2022**

After the gradual evolution from distributor to producer of exclusive PC components, be quiet! celebrates its 20th birthday with many new products at attractive prices. The company looks back on many highlights and valuable experiences, and owing to many new products in the development stage, looks positively into the future.

**125Mio.**

Annual Sales

**ARGB-**

Lighting

**2021**

On account of new and innovative products, be quiet! records an annual turnover of 125 million euros for the first time. By that time, several products with subtle ARGB lighting exist, which position themselves as alternatives to mostly black products on the market.

**2020**

The company headquarters move into new and bigger spaces in Glinde (near Hamburg, Germany). Apart from new PC cases and air coolers, a new water cooler is released. The Pure Loop boasts with its unique design and a good cooling performance.

**2018-2019**

be quiet! celebrates more than two million sold products in a year for the first time. The expansion into the North American market is driven by the opening of a branch in Walnut near Los Angeles in the US. At the end of the year 2019, be quiet! has over 100 employees.

**2016**

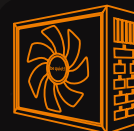

be quiet! takes a leap into the fifth product category and launches the first compact water cooler. The Silent Loop is released, and it stands out especially because of its low volume. Unfortunately, for the first time in the history of the company, there are long-standing problems that cannot be resolved even after thorough analysis. As a result, the product is withdrawn from sales.

**2014**

The first PC case Silent Base 800 is released. This is also a completely in-house developed product with a unique design. The high investments in production lines are rewarded with numerous awards. Consequently, the decision to develop further PC cases is taken.

**2000-2002**

The distributor for PC components „Listan“ is founded in Reinbek (near Hamburg, Germany). The online shop, where retail customers can place their orders, is launched in July 2000. The brand „be quiet!“ is founded in 2001 with the aim of developing PC components focusing on exceptionally quiet operation. The first product, which is released in 2002, are PC noise-dampening mats.

**2003**

Due to the constantly high demand for PC power adapters, which cannot be satisfied by the sale of other brands, be quiet! introduces its in-house developed power adapter „Blackline P4“ onto the market.

**2004-2005**

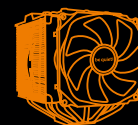

be quiet! closes its retail customer business, while internalisation is advancing rapidly. Branches in Asia and Poland are opened.

**2007**

Owing to the sustainable growth, the leadership decides to withdraw from the distribution business to focus completely on the development of proprietary products.

**2009**

The first in-house developed fan Silent Wings USC forms the basis of many more products to come.

**2010**

Building on the Silent Wings USC fan, the first CPU air coolers are released. The high-end models Dark Rock Advanced and Dark Rock Pro are received very positively.

Since 2002, we have provided high-quality and silent PC components. We offer PSUs, fans, PC cases and CPU coolers for everyone, from an entry-level gamer to hardcore PC enthusiasts. With our FX products, we have recently added a comprehensive portfolio of ARGB products.

Follow us on social media for even more insights, facts and giveaway announcements.

# POWER SUPPLIES

## DARK POWER PRO 12

### CUTTING EDGE TECHNOLOGIES AND PERFORMANCE

The be quiet! Dark Power Pro 12 offers 80 PLUS® Titanium efficiency and world class performance due to fully digital control and frameless fan concept.

- 80 PLUS® Titanium efficiency (up to 94.9%)
- Fully digital control (PFC, LLC, SR/12V) and full bridge topology
- Patented frameless Silent Wings fan for virtually inaudible operation at ordinary load
- Full mesh PSU front with redesigned funnel-shaped air inlet
- 10-year manufacturer's warranty

Modular: 1500W, 1200W

## DARK POWER 13

### NO COMPROMISE SILENCE AND PERFORMANCE

The be quiet! Dark Power 13 offers 80 PLUS® Titanium efficiency, virtually inaudible operation, and ATX 3.0 compliance for next-gen GPU compatibility.

- 80 PLUS Titanium efficiency (up to 95.8%)
- ATX 3.0 PSU with full support for PCIe 5.0 GPUs and GPUs with 6+2 pin connector
- Improved frameless Silent Wings fan for virtually inaudible operation
- 10-year manufacturer's warranty

Modular: 1000W, 850W, 750W

## STRAIGHT POWER 11

### WORLD-CLASS QUIETNESS AND EFFICIENCY

be quiet! Straight Power 11 provides a new level of silent performance for systems that demand whisper-quiet operation without compromising on power quality.

- 80 PLUS® Platinum and Gold efficiency (up to 94.1%)
- Virtually inaudible Silent Wings 3 135mm fan
- Wire-free inside the PSU for enhanced cooling and longevity
- 5-year manufacturer's warranty

Modular PLATINUM: 1200W, 1000W, 850W, 750W, 650W, 550W  
Modular GOLD: 1000W, 850W, 750W, 650W, 550W, 450W

## PURE POWER 12 M

### EXCEPTIONAL QUIET, SUPERIOR FEATURES

Pure Power 12 M is ATX 3.0 compliant and PCIe 5.0 compatible and offers peerless dependability with best-in-class features.

- 80 PLUS® Gold efficiency (up to 93.2%)
- ATX 3.0 PSU with full support for PCIe 5.0 GPUs and GPUs with 6+2 pin connectors
- Advanced stability and voltage regulation thanks to LLC technology
- 10-year manufacturer's warranty

Modular: 1000W, 850W, 750W, 650W, 550W  
Also available:  
Pure Power 11 (fixed cable): 700W, 600W, 500W, 400W

## SYSTEM POWER 10

### PROVEN RELIABILITY, QUIET OPERATION

System Power 10 is the PSU of choice for price-conscious PC builders that do not want to dispense on reliability and quietness.

- 80 PLUS® Gold and Bronze efficiency (up to 93.4%)
- DC/DC technology for tight voltage regulation
- Rock-solid stability with up to 2 strong 12V-rails
- 5-year manufacturer's warranty

Please note that not every version is available in all countries.

System Power 10 (fixed cables): 850W, 750W, 650W, 550W, 450W  
System Power 10 U (fixed cables): 850W, 750W, 650W, 550W  
System Power 9 CM (semi-modular): 700W, 600W, 500W, 400W

## SFX L POWER

### COMPACT AND SILENT ENERGY

be quiet! SFX L Power is especially recommended for mini ITX PCs and compact gaming systems.

- 80 PLUS® Gold certification (up to 92% efficiency)
- Temperature-controlled 120mm high-quality fan
- 4 PCIe connectors for powerful GPUs

Modular: 600W, 500W

## SFX POWER 3 TFX POWER 3

### COMPACT AND SILENT ENERGY

be quiet!'s SFX Power 3 and TFX Power 3 compact PSU series are the perfect choice for every mini or media PC system.

- Up to 2 strong 12V rails for powerful GPUs
- Temperature-controlled 80mm high-quality fan
- Sleeved cables and full suite of safety features

SFX Power 3: 450W, 300W  
TFX Power 3: 300W (Gold), 300W (Bronze)

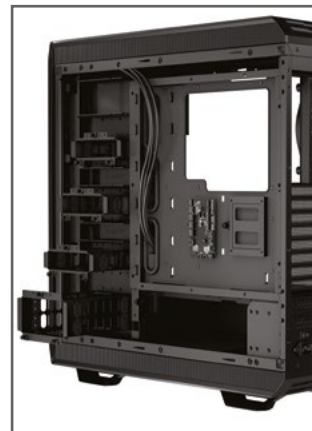

## DARK BASE PRO 900 DARK BASE 900

### OUTSTANDING FLEXIBILITY AND SILENCE

be quiet! Dark Base 900 cases offer unrivaled flexibility with impeccable cooling and silence features. They are the perfect choice for all of those who expect the highest standards when it comes to modularity, compatibility and design.

- Completely relocatable MB tray with the possibility of an inverse layout
- 3 preinstalled, virtually inaudible be quiet! Silent Wings 3 PWM fans
- Full-circuit airflow system with noisereducing vents

Available with and without window side panel.  
Color options: Orange, Black, Silver

## DARK BASE 700

### OUTSTANDING FLEXIBILITY AND SILENCE

The be quiet! Dark Base 700 is a midi-tower case that offers unrivaled flexibility with impeccable cooling and silence features.

- 2 be quiet! Silent Wings 3 140mm PWM fans
- Effective airflow system with noisedampening vents
- Fully windowed side panel from tinted and tempered glass
- USB 3.2 Gen. 2 Type C

Exterior RGB LEDs with 6 switchable colors and motherboard control option.

## SILENT BASE 802

### EXCELLENT VERSATILITY, PERFORMANCE AND SILENCE

The be quiet! Silent Base 802 is the perfect solution for sophisticated users who strive for whisper-quiet operation and maximum performance alike.

- Interchangeable top cover and front panel for either maximum airflow or silent operation
- State-of-the-art I/O-panel with fan controller and USB 3.2 Gen. 2 Type C connector for usage of latest hardware
- 3 preinstalled Pure Wings 2 140mm fans guarantee a perfect airflow

Available with or without window side panel.  
Color options: Black, White

## SILENT BASE 601

### EXCELLENT SILENCE AND USABILITY

be quiet! Silent Base 601 delivers the perfect combination of maximum silence and an excellent usability for remarkably quiet configurations.

- Innovative design provides excellent air permeability with maximum silence
- Highly user-friendly due to various features such as a detachment of the side panels with push-pins

Available with and without window side panel.  
Color options: Black, Orange, Silver

## PURE BASE 600

### EXCEPTIONALLY SILENT AND FUNCTIONAL

be quiet! Pure Base 600 offers a great deal of functionality and features at an attractive price. It is the perfect base for your system.

- Highly versatile, with repositionable HDD slots and removable ODD cage
- Adjustable top cover vent to mount a radiator
- 2 preinstalled Pure Wings 2 fans

Available with and without window side panel.  
Color options: Black, Silver (Pure Base 600)  
Orange, Black (Pure Base 600 Window)

## PURE BASE 500 FX

### IMPRESSIVE LIGHTING, EXCEPTIONAL AIRFLOW

The be quiet! Pure Base 500 FX offers impressive lighting with multiple modes and maximum airflow for high cooling performance.

- ARGB lighting at the fans, the front and inside the case
- Multiple colors and modes for an individual look
- 4 Light Wings PWM fans for high airflow and quiet operation
- ARGB PWM Hub enables synchronization of up to 6 ARGB components and 6 PWM fans

## PURE BASE 500DX

### EXCEPTIONAL AIRFLOW, SIGNIFICANT QUIET

be quiet! Pure Base 500DX is optimized for a very high cooling performance and provides advanced features.

- High airflow intake front panel and top cover for maximum performance
- 3 Pure Wings 2 140mm fans guarantee high cooling performance and silent operation
- ARGB LED at the front and inside the case
- USB 3.2 Gen. 2 Type C for latest hardware

Color options: Black, White

## PURE BASE 500

### OUTSTANDING PRICE-PERFORMANCE RATIO

be quiet! Pure Base 500 combines customizable and silence features with a compact and sophisticated design.

- Exchangeable top cover for silent or high-performance systems
- 2 preinstalled Pure Wings 2 140mm fans
- Various options to install up to 5 SSDs in total
- PSU shroud and smart cable routing options provide a neat interior

Available with and without window side panel.

Color options: Black, White, Metallic Gray

# WATER COOLERS

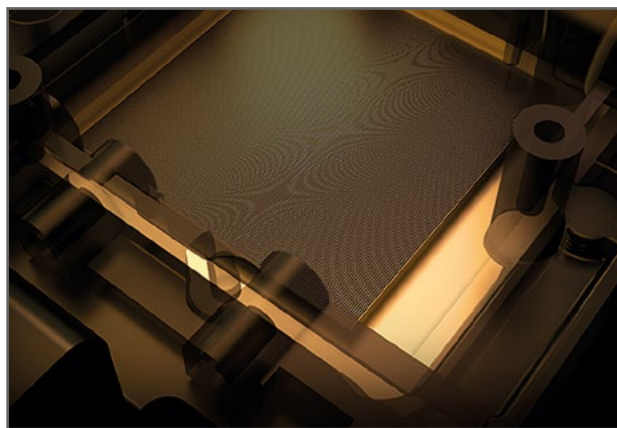

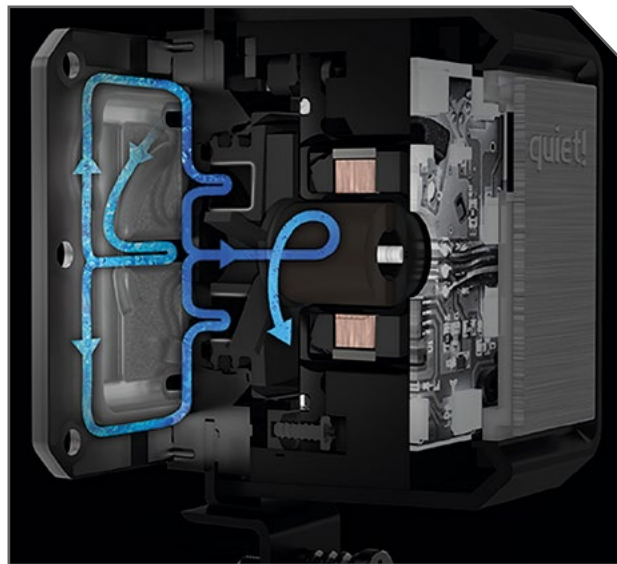

## SILENT LOOP 2

### SIGNIFICANT QUIET AND EXCEPTIONAL COOLING

Silent Loop 2 is the very high performance and whisper-quiet all-in-one watercooling for demanding systems with overclocked CPUs.

- Dampened and adjustable pump with six-pole motor for very silent and very high-performance operation
- Powerful 3-chamber pump design significantly reduces turbulences and noise
- Silent Wings 3 PWM high-speed fans for high performance and whisper-quiet operation
- ARGB LEDs for illumination options and great visual effects

Not available in North America.

# WATER COOLERS

## PURE LOOP 2 FX

### IMPRESSIVE LIGHTING, SUPERIOR COOLING

Pure Loop 2 FX is the very high-performing and silent All-in-One water cooling unit with impressive ARGB illumination.

- Very high cooling performance for all mainstream CPUs
- Up to 3 Light Wings PWM high-speed fans offer equally high air pressure and vibrant ARGB illumination
- Doubly decoupled PWM pump for quiet operation and minimal vibration
- ARGB PWM Hub enables synchronization of up to 6 ARGB components and PWM fans

## PURE LOOP

### QUIET AND SUPERIOR COOLING

Pure Loop is the high-performing and silent All-in-One water cooling unit of be quiet! for price-conscious users with over-clocked systems.

- High cooling performance
- Doubly decoupled pump for quiet operation and minimal vibration
- Pure Wings 2 PWM fans combine quiet operation with high air pressure
- White LED illumination, all-black design and aluminum style for unmistakable and stylish look

## DARK ROCK PRO 4

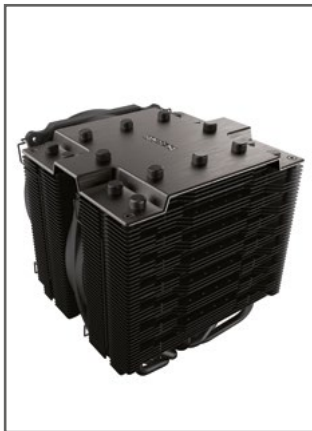

### NO COMPROMISE SILENCE AND PERFORMANCE

The be quiet! Dark Rock Pro 4 strikes the perfect balance between intense cooling and deep serenity with top performance-to-noise ratio and the highest reliability available.

- Immense cooling performance of 250W TDP
- 2 virtually inaudible Silent Wings PWM fans
- Achieves only 24.3dB(A) at maximum fan speed
- 7 high-performance copper heat pipes
- Enhanced double-tower layout enables high cooling power

Also available Dark Rock Pro TR4 for:  
AMD socket TR4, sTRX4 and SP3 only.

## DARK ROCK 4

### NO COMPROMISE SILENCE AND PERFORMANCE

The be quiet! Dark Rock 4 strikes the perfect balance between intense cooling and deep serenity. The single-tower design achieves excellent heat dissipation in confined spaces.

- Extreme cooling performance of 200W TDP
- Virtually inaudible Silent Wings 135mm PWM fan
- Achieves only 21.4dB(A) at maximum fan speed
- 6 high-performance copper heat pipes

## DARK ROCK SLIM

### NO COMPROMISE SILENCE AND PERFORMANCE

The be quiet! Dark Rock Slim offers exceptionally high cooling performance and virtually inaudible operation. Thanks to its compact construction it is the perfect choice for high-end builds with limited space.

- Exceptionally high cooling performance of 180W TDP
- Compact construction does not block memory slots
- Virtually inaudible Silent Wings 3 120mm PWM fan
- Achieves only 23.6dB(A) at maximum fan speed

## DARK ROCK TF 2

### NO COMPROMISE SILENCE AND PERFORMANCE

Dark Rock TF 2 offers extreme cooling performance for the CPU and surrounding components as well as virtually inaudible operation.

- Extremely high cooling performance with 230W TDP
- 2 heat sinks with anti-vibration rubber inserts
- Silent Wings 3 135mm with funnel shape and a Silent Wings 135mm for virtually inaudible operation of max. 27.1dB(A)

## SHADOW ROCK SLIM 2

### COMPACT COOLING, SIGNIFICANT QUIET

Shadow Rock Slim 2 CPU cooler provides very high cooling efficiency and quiet operation in a compact design ideal for tight spaces.

- Very high cooling capacity of 160W TDP
- An optimized mounting kit for an easier installation in alignment with the airflow
- 4 high-performance 6mm heat pipes with HDT technology

## SHADOW ROCK 3

### EXCEPTIONAL COOLING, SIGNIFICANT QUIET

The be quiet! Shadow Rock 3 offers impressive cooling and quiet operation. Perfect for performance beyond the standard for a good price.

- Impressive cooling performance of 190W TDP
- Five 6mm high-performance nickel-plated copper heat pipes with HDT technology
- Decoupled Shadow Wings 2 120mm PWM high-speed fan

Color options: Silver, White

## SHADOW ROCK TF 2

### COMPACT COOLING, SIGNIFICANT QUIET

be quiet! Shadow Rock TF 2 is the perfect cooler for PC systems with restricted space. It doesn't just cool the CPU, but also other components near to the socket.

- Very high cooling efficiency of 160W TDP
- Direct connection of baseplate and fins for fast heat transfer
- Silence-optimized 135mm be quiet! fan, for at max. 24.4dB(A), with durable riflebearing technology

## SHADOW ROCK LP

### EXCEPTIONAL COOLING, SIGNIFICANT QUIET

be quiet! Shadow Rock LP is a space-saving wonder that brings be quiet!'s premium cooling technology to restricted spaces at a very attractive price point.

- High 130W TDP cooling performance
- Pure Wings 2 120mm PWM fan with airflow-optimized fan blades and durable rifle-bearing for max. 25.5dB(A)
- User-friendly mounting from atop the mainboard

## PURE ROCK 2 FX

### IMPRESSIVE LIGHTING, QUIET COOLING

Pure Rock 2 FX combines vibrant ARGB illumination with high cooling efficiency and is excellent for quiet multimedia and gaming systems.

- A high 150W TDP cooling efficiency
- Light Wings 120mm PWM high-speed for vibrant unique look thanks to ARGB LEDs
- Airflow-optimized fan blades for high pressure and low noise-generating turbulences

## PURE ROCK LP

### EXTREMELY COMPACT, QUIET COOLING

Pure Rock LP fits into the tightest systems and is your CPU cooler of choice for ultra-compact Mini-ITX builds that require reliable cooling. With its remarkably small dimensions and yet high enough cooling power, Pure Rock LP is the silent air cooler to go with for HTPCs and small multimedia or gaming systems.

- Extremely compact design for small form factor systems
- With a height of mere 92mm Pure Rock LP fits in nearly any case
- be quiet! 45mm high-quality fan offers quiet and reliable cooling with max. 30.6dB(A)

## PURE ROCK 2

### QUIET AND EFFECTIVE COOLING

be quiet! Pure Rock 2 is excellent for quiet multimedia and graphics applications, and for anyone who wants a category-beating price-to-performance ratio.

- 4 high-performance 6mm copper heat pipes for high cooling capacity of 150W TDP
- Silent and airflow-optimized Pure Wings 2 120mm PWM fan for max. 26.8dB(A)
- Asymmetrical construction avoids blocking memory slots

Color options: Black, Silver

## PURE ROCK SLIM 2

### QUIET AND COMPACT COOLING

be quiet! Pure Rock Slim 2 offers 130W TDP cooling efficiency, a Pure Wings 2 92mm PWM fan and a space-saving design.

- A high 130W TDP cooling efficiency
- An optimized AMD mounting for an easy installation in alignment with the airflow

## SILENT WINGS PRO 4

### LEGENDARY SILENCE, EPIC PERFORMANCE AND FEATURES

For the highest performance, optimized fan blades, especially for heat sinks designed radiator corners and a speed switch with 3 selectable speed options, Silent Wings Pro 4 is the most progressive, performant, and versatile fan by be quiet!.

- Optimized fan blades for the highest performance on radiators and heat sinks
- Speed switch allows changing maximum PWM speed between medium-speed, high-speed and ultra-high-speed (up to 3000 rpm)
- Individual and easy mounting systems for use as a case fan or with a radiator
- Small tip clearance and a fan frame with a funnel-shaped air outlet for extremely high air pressure
- Virtually inaudible operation at regular speed
- 6-pole fan motor for less vibration and power consumption
- Fluid-dynamic bearing enables very smooth operation
- 5-year manufacturer's warranty

PWM: 120mm, 140mm

## SILENT WINGS 4

### NO COMPROMISE SILENCE AND PERFORMANCE

be quiet! Silent Wings 4 combines all features of a virtually inaudible with an extremely performant fan for the most demanding applications.

- Optimized fan blades for the highest performance
- Very silent operation even at maximum speed
- 6-pole fan motor for less vibration and power consumption
- Fluid-dynamic bearing enables very smooth operation
- Anti-vibration mounting with push pins for installation as a case fan
- 5-year manufacturer's warranty

PWM: 120mm, 120mm high-speed, 140mm, 140mm high-speed

## SHADOW WINGS 2

### WORLD-CLASS QUIET AND SOLID COOLING

be quiet! Shadow Wings 2 combine whisper-quiet operation with reliable cooling, making them the perfect solution for all silence enthusiasts.

- Whisper-quiet operation even at maximum speed, 14.7-15.8db(A)
- Airflow-optimized fan blades
- Anti-vibration mounting system that prevents transmission of vibrations to your PC case
- Secure and easy installation with push-pins

PWM: 120mm, 140mm  
3-pin: 120mm, 140mm  
Color options: Black, White

## LIGHT WINGS

### IMPRESSIVE LIGHTING, SUPERIOR COOLING

Light Wings is the first fan series with ARGB LEDs from be quiet! that does not just offer many possibilities for illumination, but also a strong performance and quiet operation.

- ARGB lighting on the front and subtle LED ring on the back
- Available as PWM with 7 fan blades for maximum airflow and PWM high-speed with 9 fan blades for high pressure
- Purchasable as single pack or triple bundle with 3 fans
- Triple bundle includes ARGB Hub to connect and synchronize up to 6 fans

PWM: 120mm, 140mm, 120mm high-speed, 140mm high-speed

## PURE WINGS 2

### OUTSTANDING RELIABILITY AND SILENT COOLING

The entry model of our fan series be quiet! Pure Wings 2 provides true affordability for outstandingly reliable and silent cooling.

- Unique airflow-optimized fan blade design
- 9 fan blades for improved airflow
- Long lasting rifle-bearing technology

PWM: 80mm, 92mm, 120mm, 120mm high-speed, 140mm, 140mm high-speed  
3-pin: 80mm, 92mm, 120mm, 120mm high-speed, 140mm, 140mm high-speed

**UPGRADE YOUR COMPONENTS**

be quiet! offers high-quality accessories to put the spot-light on power supplies, cases and cooling products. From individually sleeved cables to case accessories and thermal grease - be quiet! accessories meet the highest standards.

**M.2 SSD COOLER****RELIABLE COOLING FOR M.2 SSD**

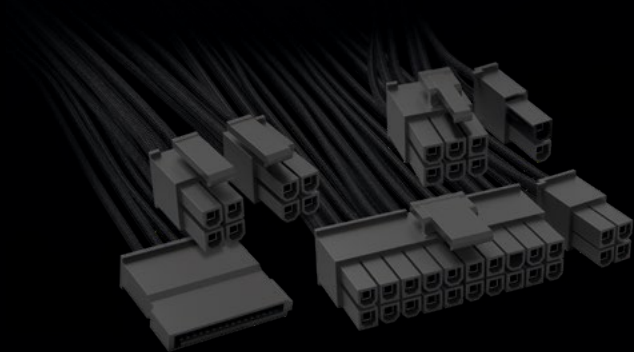

The M.2 SSD coolers MC1 and MC1 Pro provides efficient cooling, enabling maximum read/write speed for single and double sided M.2 2280 modules.

- MC1 Pro with integrated heat pipe for an ever higher cooling performance
- Lower temperatures for your M.2 SSD
- Allows maximum read/write speed for an extended lifespan
- Fits both single and double sided M.2 2280 modules
- MC1 compatible with M.2 SSD slot of PlayStation®5
- All-black finish for an elegant look

**POWER CABLE****HIGH-END FINISH FOR AMBITIOUS USERS**

Make your PC ready for modern graphics cards with the 12VHPWR Adapter Cable or give your PC the finishing touch with individually sleeved Power Cables for modular be quiet! power supplies. With their high-quality connectors and sleeves in opaque black, they meet even the highest demands.

- 12VHPWR PCIe 12+4 pin Adapter Cable
- S-ATA (multiple lengths and connectors)
- Multi (S-ATA & P-ATA)
- PCI Express 6+2 (1 or 2 connectors)
- 20+4 pin ATX
- CPU (4+4 pin or 8 pin)

**DC2 THERMAL GREASE****PERFECT MATCH FOR YOUR COOLER**

DC2 is the thermal grease of choice for all CPUs and GPUs. Its very high thermal conductivity makes for an ideal heat transfer. DC2 Pro is the thermal grease of choice for high-end chips that generates massive heat. The extremely high thermal conductivity makes for an exceptional heat transfer.

**DC2**

- Very high thermal conductivity of 7.5W/mK
- Wide temperature range of -20°C to +120°C
- 3g capacity is enough for 9 applications on average
- Spatula in the scope of delivery makes for a comfortable application

**DC2 PRO**

- Liquid metal for a thermal conductivity beyond all standards
- Extremely high thermal conductivity of 80W/mK
- Wide temperature range of 20°C to 200°C
- Only use with nickel plated coolers, incompatible with HDT and aluminum surfaces
